Title: SYNCHRONOUS FLASH MEMORY WITH ACCESSIBLE PAGE DURING WRITE		

Commissioner for Patents
Box Non-Fee Amendment
Washington, D.C. 20231

In a telephonic conversation with the Examiner on September 1, 2004, with the below-signed attorney, Andrew C. Walseth, the Examiner and Applicant discussed pending rejections of pending claims 1-15 and 28-38 of the Examiner's Advisory Action mailed on December 31, 2003. The Examiner and Applicant specifically discussed the §102(e) rejection of claims 1-15 and 28-38 over Akaogi et al. (U.S. Patent 6,240,040). The Examiner and the Applicant agreed that Akaogi et al. does not teach or disclose simultaneous writing to while reading from a first bank of a memory while accessing a second bank. The Examiner indicated that claims 1-15 and 28-38 may be allowable if they were amended to specifically claim simultaneous writing to while reading from a first bank of a memory while accessing a second bank, but that another search was required. The Examiner recommended that the Applicant file a request for continued examination amending the claims to reflect this and restating the above argument.
